LOVELAND BARK OIL is a low viscosity blend carrier penetrant for use in low volume basal bark and cut surface applications. LOVELAND BARK OIL is to be used in conjunction with oil soluble herbicides that are registered for woody plant control.

DIRECTIONS FOR USE: LOVELAND BARK OIL should be mixed with suitable oil soluble herbicides recommended for use in low volume basal bark and stump treatment applications. Mix with suitable herbicides at a range of 50% to 95% per gallon. Also, it is acceptable to mix 5% to 18% emulsifier with LOVELAND BARK OIL to aid in compatibility with the herbicides. User should follow herbicide manufacturer's label rates and recommendations closely. LOVELAND BARK OIL can be effectively used year-round.

STORAGE AND DISPOSAL

STORAGE: Store locked up. Suggested storage above 40°F. If frozen, warm product before use. Store in cool, dry place. Store in original container. Keep tightly closed. Do not reuse empty container.

DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Dispose of contents/container on-site or at an approved waste disposal facility. Triple rinse (or equivalent) adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit the ACRC web page at www.acrcycle.org.
